Chi siamo

INTRAC SPA ha la propria sede a Rovigo. Lo stabilimento di produzione, realizzato secondo i più moderni concetti produttivi, si espande su un'area di oltre 100.000 mq. di cui 40.000 coperti. Il core business dell'azienda sono le scaffalature ed i banchi cassa. INTRAC SPA elabora inoltre progetti d'arredamento per la piccola, media e grande distribuzione. La tecnologia utilizzata permette di realizzare in poco tempo una vasta gamma di prodotti di elevata qualità. Le scaffalature, colaminate o verniciate, sono prodotte con altissimi standard qualitativi, grazie a linee di produzione a controllo numerico e di verniciatura modernissime, unite a sofisticate macchine automatiche.

About us

INTRAC SPA is located in Rovigo. The production plant, built according to the most modern productive concepts, extends over an area of more than 100,000 sq.mt., with buildings occupying 40,000 sq.mt. The company's main line of business is shelving and check-out modules. INTRAC SPA also develops projects for the furnishing of small, medium and large grocery stores. The technology used enables the company to realise a vast range of high-quality products in a short space of time. Co-laminated or painted shelving is produced to very high quality standards, thanks to production lines with numerical control and modern painting systems, together with sophisticated automatic machines.

Wir über uns

INTRAC SPA hat ihren Firmensitz in Rovigo. Das nach den modernsten Produktionskonzepten realisierte Werk befindet sich auf einem Werksgelände über 100.000 m² und davon sind 40.000 m² überdacht. Die Hauptprodukte des Unternehmens sind Regale und Kassenmöbel. INTRAC SPA erarbeitet ferner Einrichtungspläne für den kleinen, mittleren und großen Vertrieb. Die eingesetzte Technologie ermöglicht es, in kürzester Zeit eine große Produktreihe höchster Qualität zu produzieren. Dank der Produktionslinien mit numerischer Kontrolle und modernsten Lackierungssystemen sowie der automatischen High-Tech-Maschinen werden die kunststoffbeschichteten bzw. lackierten Regale mit höchstem qualitativen Standard hergestellt.

Qui sommes-nous

INTRAC SPA a son propre siège à Rovigo. Son établissement de production, conçu selon les concepts de production les plus modernes, s'étend sur une surface de plus de 100 000 m² dont 40 000 couverts. Les rayonnages et les meubles caisse de sortie sont le cœur du business de l'entreprise. En outre, INTRAC SPA élabore des projets d'ameublement pour la petite, la moyenne et la grande distribution. La technologie utilisée permet de réaliser en peu de temps une gamme très large de produits de haute qualité. Les rayonnages, co-laminés ou laqués, sont produits selon des standards de très haute qualité grâce à des lignes de production à commande numérique et des lignes de vernissage ultramodernes avec des machines automatiques très sophistiquées.

Quiénes somos

INTRAC SPA tiene su sede en Rovigo. El establecimiento de producción, realizado según los más modernos conceptos productivos, se expande en un área de más de 100.000 m² de los cuales 40.000 cubiertos. La actividad principal de la empresa son las estanterías y los muebles de caja. Además, INTRAC SPA elabora proyectos de amueblado para la pequeña, media y grande distribución. La tecnología utilizada permite realizar en poco tiempo una amplia gama de productos de calidad elevada. Las estanterías, co-laminada o pintadas, se producen con un estándar de calidad elevado gracias a líneas de producción con control numérico y de pintura modernísimas, unidas a sofisticadas máquinas automáticas.

О компании

Головное предприятие компании INTRAC SPA расположено в г. Ровиго. Производственные цеха, оснащенные самым современным оборудованием, занимают площадь более 100 000 кв.м. (из них 40 000 кв.м под крытые помещения). Специализация компании – производство стеллажного оборудования и кассовых боксов. Кроме того, специалисты компании разрабатывают проекты оснащения сетевых объектов различной площади. Применяемые технологии позволяют в кратчайшие сроки произвести широкий модельный ряд оборудования высокого качества. Стеллажное оборудование (пластифицированное и окрашенное) производится в соответствии с самыми высокими мировыми стандартами на автоматизированных конвейерных линиях с ЧПУ. Для окраски оборудования используются современные покрасочные камеры с автоматическим управлением.

Le attività interne sono programmate e coordinate seguendo un concetto di estrema flessibilità; l'organizzazione è stata infatti pensata per rispondere nel modo più rapido alla domanda proveniente dal mercato.

Les activités intérieures sont programmées et coordonnées en suivant un concept de souplesse extrême. L'organisation a en effet été conçue pour répondre le plus rapidement possible à la demande provenant du marché.

The internal activities are planned and coordinated according to a concept of extreme flexibility: the organization has in fact been conceived in order to supply the most rapid response to market demands.

Las actividades internas están programadas y coordinadas siguiendo un concepto de máxima flexibilidad; por eso, la organización se ha pensado para responder rápidamente a las exigencias del mercado.

Die betriebsinternen Tätigkeiten werden nach einem extrem flexiblen Konzept programmiert und koordiniert; die Organisation dient vor allem dazu, auf rasche Weise den Nachfragen des Marktes nachzukommen.

Гибкая административно-производственная деятельность компании построена и управляется таким образом, чтобы как можно более оперативно отвечать на требования рынка.

CARATTERISTICHE TECNICHE

TECHNICAL FEATURES

**Piano di lavoro/scanner in acciaio
inox rigidizzato (cassetto elettronico
porta-monete opzionale)**

*Central Scanner module in stiffened steel
(optional cash-drawer)*

**Quadro elettronico di comando Basic
alloggiato in posizione ergonomica**

*Electronic Basic control panel ergonomically
positioned*

**Modulo vasca posteriore inclinato in acciaio
inox spazzolato realizzato con metodologie
per preservare la pulizia dello stesso**

*Rear module with inclined basin in stiffened stainless
steel manufactured in order to allow easy cleaning*

**Pannello in policarbonato illuminato a
led per comunicazione personalizzata
(opzionale)**

*Led lighting polycarbonate panel for
personalized communication (optional)*

**Motore ad alta potenza di trascinamento con
raffreddamento ad olio. Nastro in PVC a doppia
tela con possibilità di personalizzazione con logo
vulcanizzato**

*Motor with high belt drive power and oil cooling. PVC double
conveyor belt can be personalized with a vulcanized logo*

Struttura superiore in alluminio anodizzato e acciaio verniciato Ral 9005, completa di angoli di raccordo in polipropilene (PP), protetta lateralmente e posteriormente da un profilo batticarello in PVC rigido nero.

Modulo centrale in acciaio AISI 430 spazzolato, configurazione base chiusa nelle dimensioni 350-550mm. Dimensioni 350mm con predisposizione solo scanner; dimensioni 550mm con predisposizione alloggiamento scanner e cassetto porta monete.

Modulo vasca inclinata posteriore realizzata in acciaio AISI 430 spazzolato. (Opzionale AISI 304 rigidizzato)

Struttura inferiore portante in acciaio di forma arrotondata verniciata di base in colore standard, carenatura frontale verniciata con colore da definire nella gamma colori, fissaggio mobile a pavimento tramite la predisposizione nelle gambe.

Piano registratore in legno nobilitato antigraffio nero con profilo perimetrale in ABS.

Quadro elettronico di comando di tipo Basic alloggiato in posizione ergonomica.

Predisposizione per passaggio cavi del POS.

Nastro antistatico con doppia tela nera in PVC/Poliestere mosso da un motore ad alta potenza di trascinamento con funzione partenza graduale (opzionale). Fotocellule a singolo sensore funzionalità merce.

Gamma di accessori completa e funzionale.

Upper supporting structure in anodized aluminum and steel painted in Ral 9005, complete with polypropylene connection corners and lateral and rear, black, rigid PVC bumpers profile.

Central module made of stiffened AISI 430 stainless steel, dimensions 350mm up to 550mm, arranged with closed panel. The dimension 350mm allows housing a scanner; the dimension 550mm allows housing a scanner and a cash drawer.

Rear module with inclined basin in stiffened stainless steel AISI 430, reinforced by wooden panel (Option AISI 304 stainless steel).

Lower rounded supporting structure in steel, painted in standard color, frontal trims painted in color to be defined, fixing to the floor inside the legs.

Cash-register shelf in black, scratch-proof melamine wood, protected by an external black ABS edge.

Basic electronic control panel ergonomically positioned.

Internal wiring predisposition for the POS system.

The anti-static conveyor belt in polyester double cloth is driven by a high power motor drum, soft start available as an option. Single photocell sensors.

Full range of accessories.
